

LabVantage Express

LabVantage Express is a 100% web-based Laboratory Information Management System (LIMS) configured for smaller Quality Control and Analytical Testing labs to meet high quality and accreditation requirements. Get the benefits of a complete LIMS, right-sized for affordability.

HIGHLIGHTS

- **Ideal for Quality Control/ Analytical Testing labs**
- **Delivers all essential functionality to maximize lab operations**
- **Rapid deployment (SaaS, cloud, or on-premise)**
- **No post-deployment configuration**
- **Cost effective**

Key Benefits

Replace paper

Still working with paper, Excel, or homegrown solutions? LabVantage Express is the affordable answer for electronic data capture, sample management and tracking, workflows, reporting, and more. Gain all the benefits of a digital solution without investing in an enterprise LIMS.

Standardize processes

Going digital lets you standardize processes with pre-configured workflows, query tool, statistics, reports package, and dashboards. This increases lab efficiency and improves overall quality and regulatory compliance.

Ready out of the box

LabVantage Express is based on our widely deployed enterprise solution, but is distilled to deliver essential functionality in a simplified, less distracting presentation. Its streamlined-yet-complete capabilities are delivered out of the box for faster implementation, without any need for post-deployment configuration.

Cost effective

Priced to deliver the most desired functionality, LabVantage Express enables budget-conscious lab directors to go digital.

Essential Capabilities Needed for Quality and Analytical Testing

- **Request management** Manage all the information related to customer orders
- **Sample management** Manage the sample lifecycle from login to disposal; import and export samples
- **Data management** Define master data and connect instruments for automated data entry
- **AQC sample management** Perform analytical quality control to ensure accuracy of results
- **Approvals** Generate approvals on analyses and samples
- **Reporting** Leverage the variety of pre-defined reports that are available
- **Statistics** Use graphical presentations and statistics functionality
- **Queries and dashboard** Create your own pre-defined searches and monitor lab operations using a single view
- **Invoicing** Generate revenue with samples and invoice requests

LabVantage Express

- Fast implementation (SaaS, cloud, or on-premise)
- Pre-defined processes that are easy to learn and use
- Pre-defined report package, query tool, and statistics
- 100% web-based

Budget- and quality-conscious organizations deserve the productivity benefits of a laboratory information management system. LabVantage Express is a complete LIMS, right-sized to deliver all the functionality a lab like yours needs.

ABOUT LABVANTAGE SOLUTIONS

A recognized leader in enterprise laboratory software solutions, LabVantage Solutions dedicates itself to improving customer outcomes by transforming data into knowledge. The LabVantage informatics platform is highly configurable, integrated across a common architecture, and 100% browser-based to support hundreds of concurrent users. Deployed on-premise, via the cloud, or SaaS, it seamlessly interfaces with instruments and other enterprise systems – enabling true digital transformation. The platform consists of the most modern laboratory information management system (LIMS) available, integrated electronic laboratory notebook (ELN), laboratory execution system (LES), and scientific data management system (SDMS); and, for healthcare settings, a laboratory information system (LIS). We support more than 1500 global customer sites in the life sciences, pharmaceutical, medical device, biobank, food & beverage, consumer packaged goods, oil & gas, genetics/diagnostics, and healthcare industries. Headquartered in Somerset, NJ., with global offices, LabVantage has, for four decades, offered its comprehensive portfolio of products and services to enable customers to innovate faster in the R&D cycle, improve manufactured product quality, achieve accurate record-keeping, and comply with regulatory requirements.
