

# LabVantage Pharma

## Reduce cost and improve lab efficiency.

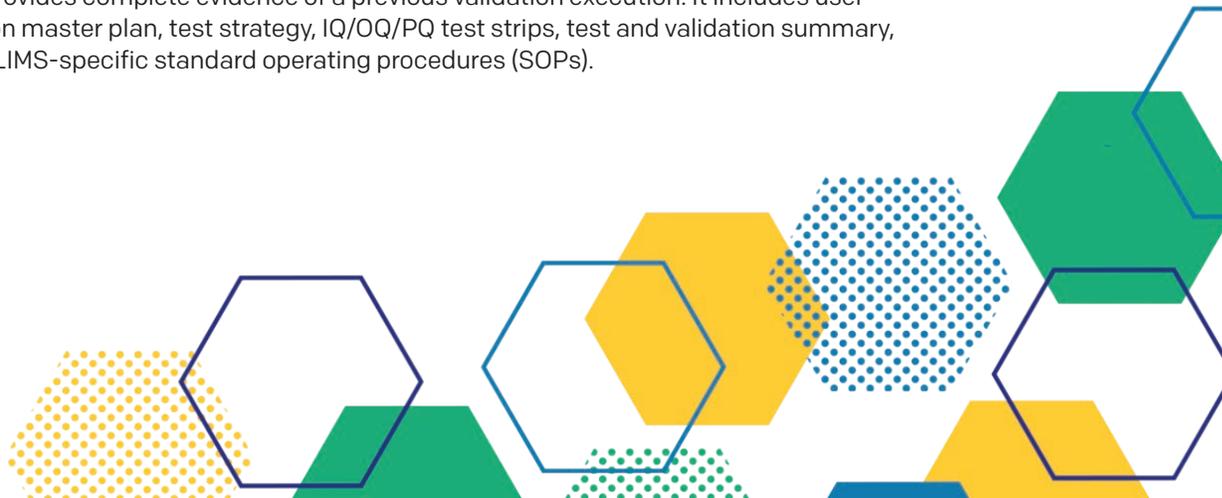

Bring products to market faster and at a lower cost while delivering higher quality and stronger regulatory compliance.

The LabVantage Pharma solution is pre-validated, preconfigured, easy to use, and can help you manage your product lifecycle for R&D and quality management.

## The Complete Package

### How is LabVantage Pharma Pre-Validated?

LabVantage Pharma provides complete evidence of a previous validation execution. It includes user requirements, validation master plan, test strategy, IQ/OQ/PQ test strips, test and validation summary, and a complete set of LIMS-specific standard operating procedures (SOPs).

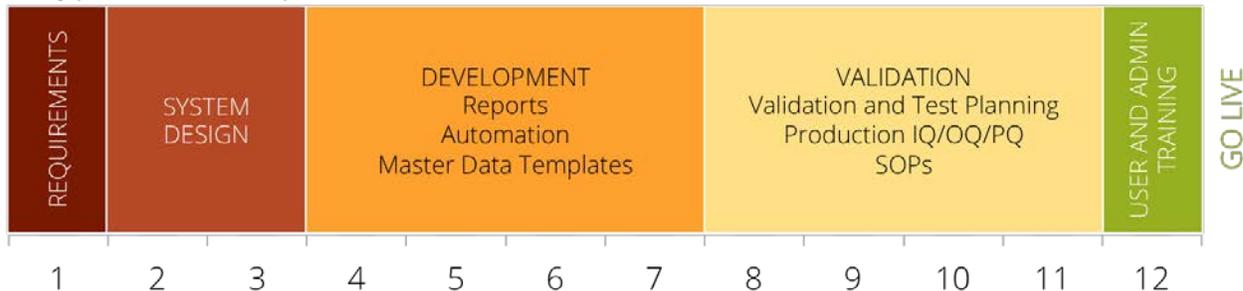

## What do you get with LabVantage Pharma?

The solution includes pharma-specific user roles and security definitions, customer specific business process workflows, configuration assistance for up to 5 product definitions, a streamlined installation qualification, commonly used laboratory reports, SOPs and a complete set of project documentation templates.

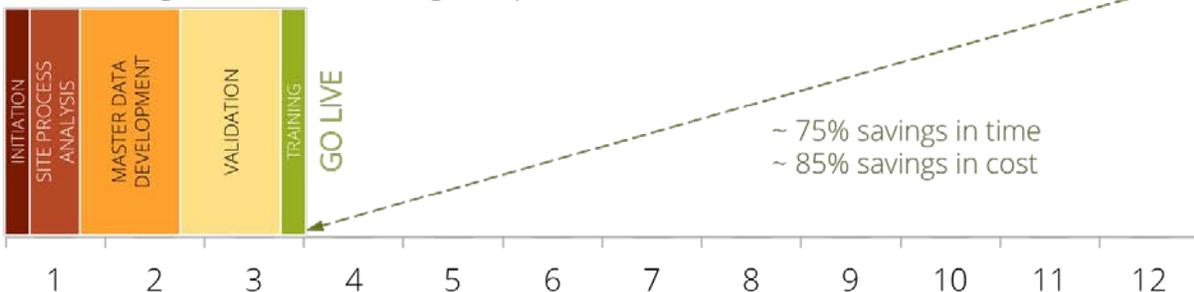

## How does LabVantage Pharma support GAMP 5?

LabVantage Pharma is validated using GAMP 5 guidelines to ensure conformance with international best practices while allowing for faster implementations. In using the GAMP 5 guideline, the LabVantage Pharma package is designed to easily integrate into existing validation processes in your laboratory.

### A Typical LIMS Implementation – Minimum 12 months
