

# LabVantage® Pharma

Reduce cost and improve lab efficiency to enable you to bring more products to market faster at lower cost while delivering higher quality and stronger regulatory compliance.

A LabVantage Pharma solution is pre-validated, preconfigured, easy to use, and can help you manage your entire product lifecycle through discovery, R&D, pre-clinical, clinical and quality management.

## The Complete Package:

### How is LabVantage Pharma a pre-validated LIMS?

LabVantage Pharma provides complete evidence of a previous validation execution. It includes user requirements, validation master plan, test strategy, IQ/OQ/PQ test strips, test and validation summary, and a complete set of LIMS specific standard operating procedures.

### What do you get with LabVantage Pharma?

The solution includes pharma-specific user roles and security definitions, customer specific business process workflows, configuration assistance for up to 5 product definitions, a streamlined installation qualification, commonly used laboratory reports, standard operative procedures (SOPs) and complete set of project documentation templates.

### How does LabVantage Pharma support GAMP 5?

LabVantage Pharma is validated under the GAMP 5 guidelines to ensure that our solution is truly “pre-validated” and standardized allowing for faster implementation. In using the GAMP 5 guideline, the LabVantage Pharma package is designed to easily integrate into existing validation processes in your laboratory.

#### About LabVantage:

LabVantage Solutions, Inc., the leading global laboratory informatics provider, is headquartered in Somerset, NJ and has offices around the world. LabVantage's industry-leading solutions and world-class services are the result of 30+ years of experience in laboratory informatics. LabVantage offers a comprehensive portfolio of products and services that enable companies to innovate faster in the R&D cycle, run labs more efficiently, improve manufactured product quality, achieve accurate recordkeeping and comply with regulatory requirements. LabVantage serves thousands of labs across the globe from industries such as pharmaceutical, biotech, food & beverage, chemicals, CPG and more.
